Dan, I wanted to get SHB's views on whether this "purge" is consistent with the Castano and Minnesota document preservation orders. I will address other issues with the IS folks but would appreciate hearing from you promptly on the Castano and Minnesota issue.

On a separate note, I will be out of the office on Tuesday and Wednesday but realize that we need to talk about a number of electronic discovery issues. Please let me know your availability on Thursday for a call to discuss these issues including the status of your review of the Castano order compliance for back-up tapes and voice mail. My Thursday is open right now except for 9 to 10 am so you pick the time. Thanks. John

Is this relating to a technical issue or a legal issue?
